**Student Remarks**

I want a bit more lenient timeline for exams and quizzes.

Professor Sriram is wonderful! He planned the course very thoroughly, is always enthusiastic which motivates us too and always pays close attention to us with our doubts. I am definitely taking the Advanced GR course!!!

very interesting course

Professor was really motivated and tried to cover a lot of concepts, however many students were expecting something else. Please rename the course as mathematical prerequisites for General Relativity or classical field theory and tensors. A lot of people wanted to learn just basic GR and not these concepts to this depth. Overall the whole syllabus was a bit overwhelming and hard to keep up with for some people.

Best course ever

best teacher

Professor is enthusiastic, knowledgeable and very helpful. Makes sure that no student is left behind, as much as he can.
