Student Remarks

Thank you for this course.

This may be the most structured course offered by the Physics Department. Professor Sriram structured it so well and covered almost everything of what was planned. His enthusiasm keeps the classes lively and his friendliness makes it easier to approach him for doubts and discussions. His teachings are easy to understand for a subject which is tough and he takes care that the necessary points are understood and remembered by the students pretty well. Will recommend these 2 courses to any student.

Professor is great, course is very well structured. Just felt it was a little rushed near the end. Could focus on depth rather than covering more topics at some points.
