Student Remarks

The Cosmology part was rushed a bit. Otherwise it was a very wonderful experience.

The topics black holes and cosmology felt rushed.

He is a good teacher

A good enthusiastic teacher. It felt the Intro to GR course was taken in a better manner than this course. The current course was rushed and could have been done in a better way.

Absolutely amazing course and teaching as well. It has motivated me to explore this subject further in research. The quizzes had new and challenging questions so it was fun to give exams.

The portion on cosmology was very rushed. Some lectures should have been devoted to mathematical preliminaries to appreciate the theoretical framework of GR. This mostly felt like an applications of GR course.
